

**OEM Audit Questionnaires Received
for the
Hyundai Service Information Website**

August 2006

OEM Audit Questionnaire

Name	Hyundai_Auditor 2
OEM Website Audited	Hyundai
Date Audit Completed	March 17, 2006
Browser and Version Used	MSN Explorer 6.0 SP2 upgrade
Operating System and Version Used	Windows XP pro

General Instructions

This questionnaire was designed by the OEM Website Audit Steering Committee in order to seek an assessment of the data elements and information that OEMs are required to include on their websites with respect to OBD systems and emission-related repairs.

The questions have been organized into six separate segments, and each one is preceded by introductory text that explains the intent of the questions within that segment. Prior to providing your responses for the questions within a particular segment, please read the instructions specific to that segment.

Please answer the questions in each segment to the best of your ability with complete and accurate information. Note that the type of response requested varies depending on the segment and question. For Segments 1 through 5 (questions 5.1 to 5.6) and Segment 6, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. Also, for Segment 1, answer the questions in an additional "Response" column by inserting a ranking between 1 (poor) and 5 (excellent).

For the remaining questions in Segment 5, (questions 5.7 to 5.12) select the best answer from the list provided. For all questions in Segments 1 through 6, you may use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

You have been requested to provide your browser and operating system above since this may be helpful to the Steering Committee in evaluating the audit results in the context of potential problems associated with the incompatibility of certain browsers or operating systems. In order to reduce the likelihood that problems encountered during your audit of the OEM website are due to your browser, the Steering Committee recommends that Internet Explorer be used when evaluating the OEM website.

The public reporting and record keeping burden for this collection of information is estimated to average 2 hours per response. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. To comment on this collection contact the Director, Collection Strategies Division (2822T), 1200 Pennsylvania Ave. NW, Washington, DC 20460. Include the OMB control number in any correspondence. Do not send the completed survey to this address.

Draft OEM Audit Questionnaire

Segment 1: Ease of Use, Accessibility, and Website Navigation

EPA regulations require that OEMs launch websites that meet certain use and accessibility and navigation requirements. The questions in this segment are intended to gain insight into your experiences with searching, navigating, and accessing the information that you need.

For Segment 1 enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. Also, for Segment 1, answer the questions in an additional "Response" column by inserting a ranking between 1 (poor) and 5 (excellent). You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Response (1-5 ranking, or NA)	Notes
1.1	Does the website provide users with a description of the minimum computer hardware and software needed by the user to access that OEM's information (e.g., computer processor speed and operating system software)? This description or a link to it should appear when users first log on to the home page of the OEM's website.	<input type="text" value="Yes"/>	<input type="text" value="4"/>	Adobe SVG graphics viewer has to be downloaded separately to view illustrations.
1.2	Did the website allow you to search the OEM website by various topics including but not limited to model, model year, key words or phrases, etc.?	<input type="text" value="Yes"/>	<input type="text" value="3"/>	Searches for specifics such as "engine assembly torque specifications" come up with a lot of topics that don't pertain to the object of the search, but which contain a single torque spec within an article about a component of the engine.
1.3	Did the website provide accessibility using common, readily available software and shall not require the use of proprietary software, hardware, viewers, or browsers?	<input type="text" value="Yes"/>	<input type="text" value="4"/>	again though to see the graphics an additional Adobe program had to be downloaded from Adobe's site and installed on my PC

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Response (1-5 ranking, or NA)	Notes
1.3a	Did the OEM website provide hyperlinks to any plug-ins, viewers or browsers (e.g., Adobe Acrobat or Netscape) needed to access the OEM website?	Yes	4	
1.4	Did you have any difficulty connecting to the website?	Yes	5	the password given to me had timed out so I had to reapply to Hyundai's site—the nice thing is that Hyundai makes their site free to everyone—so even though I couldn't initially gain entry due to the timed out username and password I was able to gain access at no personal expense. Tha is the reason for the 5 rating.
1.5	Were you able to navigate the website without returning to the OEM service information home page or a search engine in order to access a different portion of the site?	Yes	3	The problem here is that the "HOME" button is pretty hard to see
1.6	If you were a first time user, does the website involve a waiting period for registration to receive a password, PIN code, or some other approval (such as PayPal)?	Yes	5	the email responce from Hyundai is automated and quite quick

(cont.)

Draft OEM Audit Questionnaire (cont.)

In the space below, please provide any general comments about ease of use, accessibility, and website navigation.

In general I think the site is very helpfull andHyundai is to be lauded for making their information free to the public. The use of acronyms could be reduced to make the site more intelligible. An example is the ETM tab in the service information section . ETM is an abbreviation that is foreign to me.

Segment 2: OBD System Monitors

EPA regulations require that OEMs make available information on OBD system monitors such as diagnostic trouble codes and enable criteria. The questions in this segment are intended to gain insight into the availability of this information on the sites.

For Segment 2, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Notes
2.1	Are there descriptions of all the OBD monitors and their operation?	Yes	If a search is performed for OBDII monitor, some very helpful information come up on the technical approach Hyundai takes to system monitors including a 11 page explanation of cat, misfire, component, and other monitors. The OBDII tab under service informatiion is directed to individual code descriptions and repair procedures and mode 6 information

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
2.1a	Did any of these monitor descriptions lack sufficient information? If so, please explain in the "Notes" column.	No	Again, the overview type of description was only gained through the use of the site's search engine. Most of the immediately available info is on code description mode 6 translationn or in code descriptions
2.2	Were you able to find a description of all parameters (strategies) being monitored? Parameters can refer either to PID descriptions or the general monitoring strategies of the ECU.	Yes	
2.3	Was there a list of Diagnostic Trouble Codes relating to these monitors?	Yes	The test procedures for individual codes were well laid out and informative.
2.3a	Did you find the list sufficient to assist in the diagnosis and/or repair of the vehicle? If your answer is "No" please explain in the "Notes" column.	NA	I was not actually using the Hyundai site to repair a specific car in my shop.

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
2.4	Were you able to determine the enable criteria for each monitor?	No	The only place I found enabling conditions mentioned was under the individual code repair strategies
2.5	Are the sequence, execution frequency, and duration of the monitor explained?	Yes	within code descriptions
2.6	Were you able to find the malfunction thresholds for the monitor?	Yes	again within code descriptions

(cont.)

Draft OEM Audit Questionnaire (cont.)

In the space below, please provide any general comments about OBD System Monitors.

Segment 3: OBD Repair

EPA regulations require that OEMs make available basic service and repair information such as service manuals and TSBs. Some of the questions in this segment are intended to provide insight into the availability of standard service information.

In addition, EPA regulations require that OEMs make available information related to the functioning of the OBD system itself such as "mode 6 data" and multiplexing. The questions in this segment are intended to gain insight into the availability of this information on the sites.

For Segment 3, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Notes
3.1	Does the website provide information necessary to interpret "mode 6" data available in generic scan tool modes?	<input type="text" value="Yes"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
3.1a	If so, was this information useful? Please use the "Notes" column to identify why or why not.	<input type="text" value="Yes"/>	very clear and concise--found under the DTC-OBDII tab in service information
3.2	Does the website provide sufficient diagnostic and repair information for any and all DTCs encountered?	<input type="text" value="Yes"/>	
3.3	Are descriptions of OEM-specific DTCs (i.e., P1XXX codes) available?	<input type="text" value="Yes"/>	
3.4	Are technical service bulletins readily available?	<input type="text" value="Yes"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
3.5	Are trouble shooting guides or trouble shooting information available? For example, code charts, diagnostic and repair information, or fault finding logic.	<input data-bbox="898 370 1045 418" type="text" value="Yes"/>	
<p>In the space below, please provide any general comments about OBD Repair.</p>			

(cont.)

Draft OEM Audit Questionnaire (cont.)

Segment 4: Reprogramming and Reinitialization Information

EPA regulations require that OEMs make available advanced repair and diagnostic capabilities such as reprogramming (installing new or updated software during replacement of programmable modules such as PCMs or updating software or parameters within the software of in-service programmable modules) and reinitialization (reinitialization within the regulation would relate to units such as instrument panels, body control units, anti-theft immobilizers, etc. which would directly affect the ability of the vehicle to start/run within the original design parameters). Questions in this segment are intended to provide insight into the availability of the information, equipment, and tools needed to perform these services.

For Segment 4, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Reprogramming (This is also referred to as "Flashing" or software update.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.1	Are you able to find information on tools needed to perform reprogramming?	Yes	
4.2	Are you able to find the procedures to perform reprogramming?	Yes	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.3	If reprogramming is performed using a J2534 device was the software available to communicate between the device and the PC?	<input type="text" value="No"/>	The only reprogramming information I found pertained to the factory scan tool. A search for J2534 in the service information comes up empty.
4.4	Is the information to select the proper calibration for the vehicle available?	<input type="text" value="Yes"/>	The factory equipment is required
4.5	Is the vehicle calibration available?	<input type="text" value="Yes"/>	
4.6	Have you performed reprogramming services within the last 12 months for this OEM?	<input type="text" value="No"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.7	If applicable, were you able to perform a successful update/reprogram?	NA	
Reinitialization (This refers to the ability to restart a vehicle after the completion of an emissions-related repair.)			
4.8	Does this OEM require initialization or reinitialization when the ECU is replaced? If no, skip to Segment 5. For the purposes of this audit, initialization or reinitialization refers to the need to reset a vehicle's security systems by means of an ignition key or access code to allow a vehicle to be restarted after the completion of emissions-related repairs.	NA	I didn't do any reprogramming
4.9	Are you able to find information on tools needed to perform reinitialization?	NA	
4.10	Are you able to find the procedures to perform reinitialization?	NA	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.11	Have you performed reinitialization services within the last 12 months for this OEM?	No	
Answer the following two questions, 4.12 and 4.13, only if you are performing an audit of the Honda/Acura, VW/Audi, Mitsubishi, Chrysler, and Land Rover websites.			
4.12	EPA regulations allow for OEMs to offer an alternative method of reinitialization with prior approval. These companies have received approval to lease their OEM-specific scan tool to the aftermarket to perform this service. Are you able to find information about alternate methods and links to the source of that method?	<input type="text"/>	
4.13	Do you have any experience using the alternate method?	<input type="text"/>	
4.13a	If so, has it worked to your satisfaction?	<input type="text"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.13b	If not, please explain in the "Notes" column.	<input data-bbox="898 363 1045 415" type="text"/>	
<p>In the space below, please provide any general comments about reprogramming and reinitialization information.</p>			
<p>Segment 5: Structure and Cost of OEM Websites EPA regulations require that OEM websites be available for short-term, mid-term and long-term access for set fees. The questions in this segment are intended to gain insight into how the OEMs have structured their sites and the fees associated with accessing these sites.</p> <p>For Questions 5.1 to 5.6, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. For the remaining Questions 5.7 to 5.12 select the best answer from the list provided. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).</p>			

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
5.1	Does the website have short-term, mid-term, and long-term access to service information?	No	access if FREE at all times
5.2	Were you able to access the entire site?	Yes	
5.2a	Please identify areas that you could not access for the initial fee (such as reprogramming information) in the "Notes" column.	NA	
5.3	Although downloading information is not explicitly required by EPA regulations, did the website allow you to save and store any information to your computer?	Yes	direct to my printer functions worked perfectly

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
5.3a	If so, please identify the information or documents that were downloadable in the "Notes" column.	<input type="text" value="Yes"/>	I downloaded an informative article entitled "OBD-II Function Description" w/o any difficulty.
5.4	Were you able to print the information from the website?	<input type="text" value="Yes"/>	
5.5	Audi, Porsche, and Volkswagen websites require the purchase of individual documents to access repair information. For the purposes of this evaluation, how many individual documents would you have had to purchase to acquire all of the information you needed to perform the repair?	<input type="text" value="NA"/>	
5.5a	What would have been the total cost of those documents? Please identify in the "Notes" column.	<input type="text" value="NA"/>	no cost

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
5.5b	What emissions repair were you trying to do? Please identify in the "Notes" column.	NA	due the fact that I didn't ge access to the site until yesterday (March 16, 2006) and I'm not currently working on any Hyundai's the information was not used to repair any vehicles
5.5c	Some manufacturer websites require the purchase of individual documents for downloading before they can be fully viewed. In some cases, only the table of contents is available for viewing before the purchase is made. Did you purchase documents that did not contain the information you were seeking? If yes, then please identify the document and the cost of that document in the "Notes" column.	NA	
5.6	Have you purchased service information, training materials, TSBs, CDs, videos, CD-ROMs, etc. from the website?	No	
5.6a	If so, indicate in the "Notes" column the number and description of materials purchased.		

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (select from the list or insert NA)	Notes
5.7	<p>Does your shop specialize in vehicle repairs from specific OEMs?</p> <p>1. Asian</p> <p>2. European</p> <p>3. Domestic</p> <p>4. We specialize in vehicles from a single OEM, _____ . Please list that OEM.</p> <p>5. We service vehicles from all OEMs and do not specialize in any specific OEMs or group of OEMs.</p>	<input type="text" value="5 All"/>	
5.8	<p>What is your primary source for electronic service information?</p> <p>1. Aftermarket (e.g., ALLDATA, Mitchell1, etc.)</p> <p>2. OEM Websites</p> <p>3. Other, please list in the "Notes" column.</p>	<input type="text" value="Aftermarket"/>	Alldata , IATN
5.9	<p>How much do you spend for an annual subscription to your primary source listed above?</p> <p>1. \$0 - \$500</p> <p>2. \$500 - \$1,000</p> <p>3. \$1,000 - \$2,000</p> <p>4. Over \$2,000</p>	<input type="text" value="\$1,000 - \$2,000"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
If you use an aftermarket service provider as your primary source of service information, please respond to Questions 5.10 to 5.12.			
5.10	<p>What is the primary reason for selecting the primary source listed in question 5.8?</p> <ol style="list-style-type: none"> 1. Completeness for the brands I service 2. Experience/Familiarity with the product 3. Available off-line 4. Common organization of information for all manufacturers 5. Price 6. Other, please list in the "Notes" column. 	<input type="text" value="1 Completeness"/>	<p>Additionally Alldata has a fax back feature that allows them to search a large central library for information not on the DVD database and then fax the info directly to the repair shop</p>
5.11	<p>Approximately how many times do you access an OEM website?</p> <ol style="list-style-type: none"> 1. Never 2. 1 to 5 times monthly 3. 5 to 10 times monthly 4. 10 to 20 times monthly 5. Over 20 times monthly 	<input type="text" value="1 to 5"/>	<p>per month</p>

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
5.12	<p>Do you typically subscribe to OEM websites? If so, please select the type of subscription from the list that you usually purchase.</p> <ol style="list-style-type: none"> 1. 24 - 72 hour subscription 2. Monthly subscription 3. Annual subscription 	<div style="border: 1px solid black; padding: 2px; width: fit-content;">24-72 hr</div>	
<p>In the space below, please provide any general comments about the structure and cost of OEM websites.</p> <p>I'd like to see a portal site with access to all OEM sites set up. Users could then gain access thru a common web address to all OEM web based information by paying a per use or alternatively a subscription fee.</p>			
<p>Segment 6: General Information and Comments The questions in this segment are intended to gain insight into the OEM websites.</p>			

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
6.1	Does the website contain information describing how to use the website? Possible sources of such information could be tutorials, "help" links, or lists of "frequently asked questions" (FAQ).	<input type="text" value="No"/>	I didn't see anything of that nature but the navigation is pretty intuitive anyway.
6.1a	If so, is the information relevant, useful, and readily accessible? Please identify where the information is located in the "Notes" column.	<input type="text" value="Yes"/>	The search function works OK but it isn't the best one I've used. The repair database is called "service information" in the menu selection
6.2	The "contact us" link is required to allow users to report problems, omissions or errors with the website, not to assist in vehicle trouble shooting or technical assistance. Does the website provide a "contact us" link for questions and/or reporting of problems, omissions or errors?	<input type="text" value="Yes"/>	
6.2a	Have you attempted to use the "contact us" link?	<input type="text" value="No"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
6.2b	Have you received the desired information or answer to your question within 48 hours?	NA	
6.3	Is training information available on the website?	Yes	
6.3a	Are lists and sources (contacts or ordering information) identified for training information which is not Internet capable?	Yes	
6.4	Is information available on the website listing available factory tools and ordering information?	Yes	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
6.5	Did you attempt to find information which was unavailable on the website?	No	
6.5a	If so, please identify in the "Notes" column what information you were seeking, how you conducted your search, and results (or lack thereof) you experienced.	NA	
6.5b	Are you aware of other information which may not be available on the website? Please identify in the "Notes" column.	No	

(cont.)

Draft OEM Audit Questionnaire (cont.)

In the space below, please provide any general comments about the website or suggestions for improvement.

I'd like to be more complete in my critique of the Hyundai but due to time constraints (only a one and 1/2 hours viewing, over the two day experience) I've been as thorough as possible—my apologies.

OEM Audit Questionnaire

Name	Hyundai_Auditor 4
OEM Website Audited	Hyundai
Date Audit Completed	03/28/2006
Browser and Version Used	Internet Explorer
Operating System and Version Used	xp service pack 2

General Instructions

This questionnaire was designed by the OEM Website Audit Steering Committee in order to seek an assessment of the data elements and information that OEMs are required to include on their websites with respect to OBD systems and emission-related repairs.

The questions have been organized into six separate segments, and each one is preceded by introductory text that explains the intent of the questions within that segment. Prior to providing your responses for the questions within a particular segment, please read the instructions specific to that segment.

Please answer the questions in each segment to the best of your ability with complete and accurate information. Note that the type of response requested varies depending on the segment and question. For Segments 1 through 5 (questions 5.1 to 5.6) and Segment 6, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. Also, for Segment 1, answer the questions in an additional "Response" column by inserting a ranking between 1 (poor) and 5 (excellent).

For the remaining questions in Segment 5, (questions 5.7 to 5.12) select the best answer from the list provided. For all questions in Segments 1 through 6, you may use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

You have been requested to provide your browser and operating system above since this may be helpful to the Steering Committee in evaluating the audit results in the context of potential problems associated with the incompatibility of certain browsers or operating systems. In order to reduce the likelihood that problems encountered during your audit of the OEM website are due to your browser, the Steering Committee recommends that Internet Explorer be used when evaluating the OEM website.

The public reporting and record keeping burden for this collection of information is estimated to average 2 hours per response. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. To comment on this collection contact the Director, Collection Strategies Division (2822T), 1200 Pennsylvania Ave. NW, Washington, DC 20460. Include the OMB control number in any correspondence. Do not send the completed survey to this address.

Draft OEM Audit Questionnaire

Segment 1: Ease of Use, Accessibility, and Website Navigation

EPA regulations require that OEMs launch websites that meet certain use and accessibility and navigation requirements. The questions in this segment are intended to gain insight into your experiences with searching, navigating, and accessing the information that you need.

For Segment 1 enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. Also, for Segment 1, answer the questions in an additional "Response" column by inserting a ranking between 1 (poor) and 5 (excellent). You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Response (1-5 ranking, or NA)	Notes
1.1	Does the website provide users with a description of the minimum computer hardware and software needed by the user to access that OEM's information (e.g., computer processor speed and operating system software)? This description or a link to it should appear when users first log on to the home page of the OEM's website.	<input type="text" value="Yes"/>	<input type="text" value="5"/>	
1.2	Did the website allow you to search the OEM website by various topics including but not limited to model, model year, key words or phrases, etc.?	<input type="text" value="Yes"/>	<input type="text" value="5"/>	
1.3	Did the website provide accessibility using common, readily available software and shall not require the use of proprietary software, hardware, viewers, or browsers?	<input type="text" value="Yes"/>	<input type="text" value="5"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Response (1-5 ranking, or NA)	Notes
1.3a	Did the OEM website provide hyperlinks to any plug-ins, viewers or browsers (e.g., Adobe Acrobat or Netscape) needed to access the OEM website?	Yes	5	
1.4	Did you have any difficulty connecting to the website?	No	5	
1.5	Were you able to navigate the website without returning to the OEM service information home page or a search engine in order to access a different portion of the site?	Yes	5	
1.6	If you were a first time user, does the website involve a waiting period for registration to receive a password, PIN code, or some other approval (such as PayPal)?	No	5	

(cont.)

Draft OEM Audit Questionnaire (cont.)

In the space below, please provide any general comments about ease of use, accessibility, and website navigation.

Excellent in every way.

Segment 2: OBD System Monitors

EPA regulations require that OEMs make available information on OBD system monitors such as diagnostic trouble codes and enable criteria. The questions in this segment are intended to gain insight into the availability of this information on the sites.

For Segment 2, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Notes
2.1	Are there descriptions of all the OBD monitors and their operation?	Yes	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
2.1a	Did any of these monitor descriptions lack sufficient information? If so, please explain in the "Notes" column.	<input type="text" value="Yes"/>	Specific threshold data was missing
2.2	Were you able to find a description of all parameters (strategies) being monitored? Parameters can refer either to PID descriptions or the general monitoring strategies of the ECU.	<input type="text" value="Yes"/>	
2.3	Was there a list of Diagnostic Trouble Codes relating to these monitors?	<input type="text" value="Yes"/>	
2.3a	Did you find the list sufficient to assist in the diagnosis and/or repair of the vehicle? If your answer is "No" please explain in the "Notes" column.	<input type="text" value="Yes"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
2.4	Were you able to determine the enable criteria for each monitor?	Yes	
2.5	Are the sequence, execution frequency, and duration of the monitor explained?	No	descriptions were vague
2.6	Were you able to find the malfunction thresholds for the monitor?	Yes	

(cont.)

In the space below, please provide any general comments about OBD System Monitors.

Segment 3: OBD Repair

EPA regulations require that OEMs make available basic service and repair information such as service manuals and TSBs. Some of the questions in this segment are intended to provide insight into the availability of standard service information.

In addition, EPA regulations require that OEMs make available information related to the functioning of the OBD system itself such as "mode 6 data" and multiplexing. The questions in this segment are intended to gain insight into the availability of this information on the sites.

For Segment 3, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Notes
3.1	Does the website provide information necessary to interpret "mode 6" data available in generic scan tool modes?	<input type="text" value="Yes"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
3.1a	If so, was this information useful? Please use the "Notes" column to identify why or why not.	<input type="text" value="Yes"/>	
3.2	Does the website provide sufficient diagnostic and repair information for any and all DTCs encountered?	<input type="text" value="Yes"/>	
3.3	Are descriptions of OEM-specific DTCs (i.e., P1XXX codes) available?	<input type="text" value="Yes"/>	
3.4	Are technical service bulletins readily available?	<input type="text" value="Yes"/>	

(cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
3.5	Are trouble shooting guides or trouble shooting information available? For example, code charts, diagnostic and repair information, or fault finding logic.	<input data-bbox="898 370 1045 418" type="text" value="Yes"/>	
<p>In the space below, please provide any general comments about OBD Repair.</p>			

(cont.)

Draft OEM Audit Questionnaire (cont.)

Segment 4: Reprogramming and Reinitialization Information

EPA regulations require that OEMs make available advanced repair and diagnostic capabilities such as reprogramming (installing new or updated software during replacement of programmable modules such as PCMs or updating software or parameters within the software of in-service programmable modules) and reinitialization (reinitialization within the regulation would relate to units such as instrument panels, body control units, anti-theft immobilizers, etc. which would directly affect the ability of the vehicle to start/run within the original design parameters). Questions in this segment are intended to provide insight into the availability of the information, equipment, and tools needed to perform these services.

For Segment 4, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Reprogramming (This is also referred to as "Flashing" or software update.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.1	Are you able to find information on tools needed to perform reprogramming?	<input type="text" value="Yes"/>	
4.2	Are you able to find the procedures to perform reprogramming?	<input type="text" value="Yes"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.3	If reprogramming is performed using a J2534 device was the software available to communicate between the device and the PC?	<input type="text" value="No"/>	Only reprogramming procedures given require the OEM scan tool (Hi-Scan Pro)
4.4	Is the information to select the proper calibration for the vehicle available?	<input type="text" value="Yes"/>	
4.5	Is the vehicle calibration available?	<input type="text" value="Yes"/>	
4.6	Have you performed reprogramming services within the last 12 months for this OEM?	<input type="text" value="No"/>	No need as of yet

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.7	If applicable, were you able to perform a successful update/reprogram?	NA	
Reinitialization (This refers to the ability to restart a vehicle after the completion of an emissions-related repair.)			
4.8	Does this OEM require initialization or reinitialization when the ECU is replaced? If no, skip to Segment 5. For the purposes of this audit, initialization or reinitialization refers to the need to reset a vehicle's security systems by means of an ignition key or access code to allow a vehicle to be restarted after the completion of emissions-related repairs.	No	
4.9	Are you able to find information on tools needed to perform reinitialization?		
4.10	Are you able to find the procedures to perform reinitialization?		

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.11	Have you performed reinitialization services within the last 12 months for this OEM?	<input type="text"/>	
Answer the following two questions, 4.12 and 4.13, only if you are performing an audit of the Honda/Acura, VW/Audi, Mitsubishi, Chrysler, and Land Rover websites.			
4.12	EPA regulations allow for OEMs to offer an alternative method of reinitialization with prior approval. These companies have received approval to lease their OEM-specific scan tool to the aftermarket to perform this service. Are you able to find information about alternate methods and links to the source of that method?	<input type="text"/>	
4.13	Do you have any experience using the alternate method?	<input type="text"/>	
4.13a	If so, has it worked to your satisfaction?	<input type="text"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.13b	If not, please explain in the "Notes" column.	<input data-bbox="898 363 1045 415" type="text"/>	
<p>In the space below, please provide any general comments about reprogramming and reinitialization information.</p>			
<p>Segment 5: Structure and Cost of OEM Websites EPA regulations require that OEM websites be available for short-term, mid-term and long-term access for set fees. The questions in this segment are intended to gain insight into how the OEMs have structured their sites and the fees associated with accessing these sites.</p> <p>For Questions 5.1 to 5.6, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. For the remaining Questions 5.7 to 5.12 select the best answer from the list provided. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).</p>

OEM Audit Questionnaire

Name	Hyundai_Auditor 5
OEM Website Audited	Hyundai
Date Audit Completed	Mar 6, 2006
Browser and Version Used	Internet Explorer 6.0.2800
Operating System and Version Used	Windows 2000

General Instructions

This questionnaire was designed by the OEM Website Audit Steering Committee in order to seek an assessment of the data elements and information that OEMs are required to include on their websites with respect to OBD systems and emission-related repairs.

The questions have been organized into six separate segments, and each one is preceded by introductory text that explains the intent of the questions within that segment. Prior to providing your responses for the questions within a particular segment, please read the instructions specific to that segment.

Please answer the questions in each segment to the best of your ability with complete and accurate information. Note that the type of response requested varies depending on the segment and question. For Segments 1 through 5 (questions 5.1 to 5.6) and Segment 6, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. Also, for Segment 1, answer the questions in an additional "Response" column by inserting a ranking between 1 (poor) and 5 (excellent).

For the remaining questions in Segment 5, (questions 5.7 to 5.12) select the best answer from the list provided. For all questions in Segments 1 through 6, you may use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

You have been requested to provide your browser and operating system above since this may be helpful to the Steering Committee in evaluating the audit results in the context of potential problems associated with the incompatibility of certain browsers or operating systems. In order to reduce the likelihood that problems encountered during your audit of the OEM website are due to your browser, the Steering Committee recommends that Internet Explorer be used when evaluating the OEM website.

The public reporting and record keeping burden for this collection of information is estimated to average 2 hours per response. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. To comment on this collection contact the Director, Collection Strategies Division (2822T), 1200 Pennsylvania Ave. NW, Washington, DC 20460. Include the OMB control number in any correspondence. Do not send the completed survey to this address.

Draft OEM Audit Questionnaire

Segment 1: Ease of Use, Accessibility, and Website Navigation

EPA regulations require that OEMs launch websites that meet certain use and accessibility and navigation requirements. The questions in this segment are intended to gain insight into your experiences with searching, navigating, and accessing the information that you need.

For Segment 1 enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. Also, for Segment 1, answer the questions in an additional "Response" column by inserting a ranking between 1 (poor) and 5 (excellent). You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Response (1-5 ranking, or NA)	Notes
1.1	Does the website provide users with a description of the minimum computer hardware and software needed by the user to access that OEM's information (e.g., computer processor speed and operating system software)? This description or a link to it should appear when users first log on to the home page of the OEM's website.	<input type="text" value="Yes"/>	<input type="text" value="4"/>	
1.2	Did the website allow you to search the OEM website by various topics including but not limited to model, model year, key words or phrases, etc.?	<input type="text" value="Yes"/>	<input type="text" value="4"/>	
1.3	Did the website provide accessibility using common, readily available software and shall not require the use of proprietary software, hardware, viewers, or browsers?	<input type="text" value="Yes"/>	<input type="text" value="4"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Response (1-5 ranking, or NA)	Notes
1.3a	Did the OEM website provide hyperlinks to any plug-ins, viewers or browsers (e.g., Adobe Acrobat or Netscape) needed to access the OEM website?	Yes	4	
1.4	Did you have any difficulty connecting to the website?	No	4	
1.5	Were you able to navigate the website without returning to the OEM service information home page or a search engine in order to access a different portion of the site?	Yes	4	
1.6	If you were a first time user, does the website involve a waiting period for registration to receive a password, PIN code, or some other approval (such as PayPal)?	No	4	

(cont.)

Draft OEM Audit Questionnaire (cont.)

In the space below, please provide any general comments about ease of use, accessibility, and website navigation.

Very Good

Segment 2: OBD System Monitors

EPA regulations require that OEMs make available information on OBD system monitors such as diagnostic trouble codes and enable criteria. The questions in this segment are intended to gain insight into the availability of this information on the sites.

For Segment 2, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Notes
2.1	Are there descriptions of all the OBD monitors and their operation?	Yes	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
2.1a	Did any of these monitor descriptions lack sufficient information? If so, please explain in the "Notes" column.	<input type="text" value="No"/>	
2.2	Were you able to find a description of all parameters (strategies) being monitored? Parameters can refer either to PID descriptions or the general monitoring strategies of the ECU.	<input type="text" value="Yes"/>	
2.3	Was there a list of Diagnostic Trouble Codes relating to these monitors?	<input type="text" value="Yes"/>	
2.3a	Did you find the list sufficient to assist in the diagnosis and/or repair of the vehicle? If your answer is "No" please explain in the "Notes" column.	<input type="text" value="Yes"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
2.4	Were you able to determine the enable criteria for each monitor?	<input data-bbox="900 370 1045 418" type="text" value="Yes"/>	
2.5	Are the sequence, execution frequency, and duration of the monitor explained?	<input data-bbox="900 605 1045 654" type="text" value="Yes"/>	
2.6	Were you able to find the malfunction thresholds for the monitor?	<input data-bbox="900 841 1045 889" type="text" value="Yes"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

In the space below, please provide any general comments about OBD System Monitors.

Segment 3: OBD Repair

EPA regulations require that OEMs make available basic service and repair information such as service manuals and TSBs. Some of the questions in this segment are intended to provide insight into the availability of standard service information.

In addition, EPA regulations require that OEMs make available information related to the functioning of the OBD system itself such as "mode 6 data" and multiplexing. The questions in this segment are intended to gain insight into the availability of this information on the sites.

For Segment 3, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Notes
3.1	Does the website provide information necessary to interpret "mode 6" data available in generic scan tool modes?	NA	May have but could not find.

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
6.1	Does the website contain information describing how to use the website? Possible sources of such information could be tutorials, "help" links, or lists of "frequently asked questions" (FAQ).	<input type="text" value="Yes"/>	
6.1a	If so, is the information relevant, useful, and readily accessible? Please identify where the information is located in the "Notes" column.	<input type="text" value="Yes"/>	
6.2	The "contact us" link is required to allow users to report problems, omissions or errors with the website, not to assist in vehicle trouble shooting or technical assistance. Does the website provide a "contact us" link for questions and/or reporting of problems, omissions or errors?	<input type="text" value="Yes"/>	
6.2a	Have you attempted to use the "contact us" link?	<input type="text" value="No"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
6.2b	Have you received the desired information or answer to your question within 48 hours?	NA	
6.3	Is training information available on the website?	Yes	
6.3a	Are lists and sources (contacts or ordering information) identified for training information which is not Internet capable?	Yes	
6.4	Is information available on the website listing available factory tools and ordering information?	Yes	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
6.5	Did you attempt to find information which was unavailable on the website?	<input type="text" value="Yes"/>	
6.5a	If so, please identify in the "Notes" column what information you were seeking, how you conducted your search, and results (or lack thereof) you experienced.	<input type="text" value="Yes"/>	General reprogramming does J2534 work with these cars
6.5b	Are you aware of other information which may not be available on the website? Please identify in the "Notes" column.	<input type="text" value="No"/>

OEM Audit Questionnaire

Name	Hyundai_Auditor 7
OEM Website Audited	Hyundai
Date Audit Completed	3/5/2006
Browser and Version Used	Microsoft Internet Explorer 6.0.2
Operating System and Version Used	Microsoft XP Home And Professional

General Instructions

This questionnaire was designed by the OEM Website Audit Steering Committee in order to seek an assessment of the data elements and information that OEMs are required to include on their websites with respect to OBD systems and emission-related repairs.

The questions have been organized into six separate segments, and each one is preceded by introductory text that explains the intent of the questions within that segment. Prior to providing your responses for the questions within a particular segment, please read the instructions specific to that segment.

Please answer the questions in each segment to the best of your ability with complete and accurate information. Note that the type of response requested varies depending on the segment and question. For Segments 1 through 5 (questions 5.1 to 5.6) and Segment 6, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. Also, for Segment 1, answer the questions in an additional "Response" column by inserting a ranking between 1 (poor) and 5 (excellent).

For the remaining questions in Segment 5, (questions 5.7 to 5.12) select the best answer from the list provided. For all questions in Segments 1 through 6, you may use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

You have been requested to provide your browser and operating system above since this may be helpful to the Steering Committee in evaluating the audit results in the context of potential problems associated with the incompatibility of certain browsers or operating systems. In order to reduce the likelihood that problems encountered during your audit of the OEM website are due to your browser, the Steering Committee recommends that Internet Explorer be used when evaluating the OEM website.

The public reporting and record keeping burden for this collection of information is estimated to average 2 hours per response. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. To comment on this collection contact the Director, Collection Strategies Division (2822T), 1200 Pennsylvania Ave. NW, Washington, DC 20460. Include the OMB control number in any correspondence. Do not send the completed survey to this address.

Draft OEM Audit Questionnaire

Segment 1: Ease of Use, Accessibility, and Website Navigation

EPA regulations require that OEMs launch websites that meet certain use and accessibility and navigation requirements. The questions in this segment are intended to gain insight into your experiences with searching, navigating, and accessing the information that you need.

For Segment 1 enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. Also, for Segment 1, answer the questions in an additional "Response" column by inserting a ranking between 1 (poor) and 5 (excellent). You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Response (1-5 ranking, or NA)	Notes
1.1	Does the website provide users with a description of the minimum computer hardware and software needed by the user to access that OEM's information (e.g., computer processor speed and operating system software)? This description or a link to it should appear when users first log on to the home page of the OEM's website.	<input type="text" value="Yes"/>	<input type="text" value="5"/>	Link to this information is on the home page
1.2	Did the website allow you to search the OEM website by various topics including but not limited to model, model year, key words or phrases, etc.?	<input type="text" value="Yes"/>	<input type="text" value="5"/>	
1.3	Did the website provide accessibility using common, readily available software and shall not require the use of proprietary software, hardware, viewers, or browsers?	<input type="text" value="Yes"/>	<input type="text" value="5"/>	Links to all needed software was in the system requirement link

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Response (1-5 ranking, or NA)	Notes
1.3a	Did the OEM website provide hyperlinks to any plug-ins, viewers or browsers (e.g., Adobe Acrobat or Netscape) needed to access the OEM website?	Yes	5	As stated above
1.4	Did you have any difficulty connecting to the website?	Yes	5	
1.5	Were you able to navigate the website without returning to the OEM service information home page or a search engine in order to access a different portion of the site?	Yes	5	
1.6	If you were a first time user, does the website involve a waiting period for registration to receive a password, PIN code, or some other approval (such as PayPal)?	No	4	No waiting period, I signed up for my own account and received my password in under 5 minutes.

(cont.)

Draft OEM Audit Questionnaire (cont.)

In the space below, please provide any general comments about ease of use, accessibility, and website navigation.

Segment 2: OBD System Monitors

EPA regulations require that OEMs make available information on OBD system monitors such as diagnostic trouble codes and enable criteria. The questions in this segment are intended to gain insight into the availability of this information on the sites.

For Segment 2, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Notes
2.1	Are there descriptions of all the OBD monitors and their operation?	Yes	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
2.1a	Did any of these monitor descriptions lack sufficient information? If so, please explain in the "Notes" column.	<input type="text" value="No"/>	
2.2	Were you able to find a description of all parameters (strategies) being monitored? Parameters can refer either to PID descriptions or the general monitoring strategies of the ECU.	<input type="text" value="Yes"/>	
2.3	Was there a list of Diagnostic Trouble Codes relating to these monitors?	<input type="text" value="Yes"/>	
2.3a	Did you find the list sufficient to assist in the diagnosis and/or repair of the vehicle? If your answer is "No" please explain in the "Notes" column.	<input type="text" value="Yes"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
2.4	Were you able to determine the enable criteria for each monitor?	<input data-bbox="900 370 1045 418" type="text" value="Yes"/>	
2.5	Are the sequence, execution frequency, and duration of the monitor explained?	<input data-bbox="900 605 1045 654" type="text" value="Yes"/>	
2.6	Were you able to find the malfunction thresholds for the monitor?	<input data-bbox="900 841 1045 889" type="text" value="Yes"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

In the space below, please provide any general comments about OBD System Monitors.

Segment 3: OBD Repair

EPA regulations require that OEMs make available basic service and repair information such as service manuals and TSBs. Some of the questions in this segment are intended to provide insight into the availability of standard service information.

In addition, EPA regulations require that OEMs make available information related to the functioning of the OBD system itself such as "mode 6 data" and multiplexing. The questions in this segment are intended to gain insight into the availability of this information on the sites.

For Segment 3, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Notes
3.1	Does the website provide information necessary to interpret "mode 6" data available in generic scan tool modes?	<input type="text" value="Yes"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
3.1a	If so, was this information useful? Please use the "Notes" column to identify why or why not.	Yes	The site had a good break down of mode 6 data, all limits, variables and codes pertaining to this CID
3.2	Does the website provide sufficient diagnostic and repair information for any and all DTCs encountered?	No	
3.3	Are descriptions of OEM-specific DTCs (i.e., P1XXX codes) available?	Yes	
3.4	Are technical service bulletins readily available?	Yes	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
3.5	Are trouble shooting guides or trouble shooting information available? For example, code charts, diagnostic and repair information, or fault finding logic.	<input data-bbox="898 370 1045 418" type="text" value="Yes"/>	
<p>In the space below, please provide any general comments about OBD Repair.</p>			

(cont.)

Draft OEM Audit Questionnaire (cont.)

Segment 4: Reprogramming and Reinitialization Information

EPA regulations require that OEMs make available advanced repair and diagnostic capabilities such as reprogramming (installing new or updated software during replacement of programmable modules such as PCMs or updating software or parameters within the software of in-service programmable modules) and reinitialization (reinitialization within the regulation would relate to units such as instrument panels, body control units, anti-theft immobilizers, etc. which would directly affect the ability of the vehicle to start/run within the original design parameters). Questions in this segment are intended to provide insight into the availability of the information, equipment, and tools needed to perform these services.

For Segment 4, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Reprogramming (This is also referred to as "Flashing" or software update.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.1	Are you able to find information on tools needed to perform reprogramming?	Yes	
4.2	Are you able to find the procedures to perform reprogramming?	Yes	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.3	If reprogramming is performed using a J2534 device was the software available to communicate between the device and the PC?	<input type="text" value="No"/>	The User name and password I was given is a "DEALER" subscription. They have no J2534 reprogramming that I could find. Factory scan tool only
4.4	Is the information to select the proper calibration for the vehicle available?	<input type="text" value="Yes"/>	By tsb only
4.5	Is the vehicle calibration available?	<input type="text" value="Yes"/>	By tsb only
4.6	Have you performed reprogramming services within the last 12 months for this OEM?	<input type="text" value="No"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.7	If applicable, were you able to perform a successful update/reprogram?	<input type="text"/>	
Reinitialization (This refers to the ability to restart a vehicle after the completion of an emissions-related repair.)			
4.8	Does this OEM require initialization or reinitialization when the ECU is replaced? If no, skip to Segment 5. For the purposes of this audit, initialization or reinitialization refers to the need to reset a vehicle's security systems by means of an ignition key or access code to allow a vehicle to be restarted after the completion of emissions-related repairs.	<input type="text" value="Yes"/>	
4.9	Are you able to find information on tools needed to perform reinitialization?	<input type="text" value="Yes"/>	On a dealer level with dealer scan tool only
4.10	Are you able to find the procedures to perform reinitialization?	<input type="text" value="No"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.11	Have you performed reinitialization services within the last 12 months for this OEM?	No	
Answer the following two questions, 4.12 and 4.13, only if you are performing an audit of the Honda/Acura, VW/Audi, Mitsubishi, Chrysler, and Land Rover websites.			
4.12	EPA regulations allow for OEMs to offer an alternative method of reinitialization with prior approval. These companies have received approval to lease their OEM-specific scan tool to the aftermarket to perform this service. Are you able to find information about alternate methods and links to the source of that method?	No	
4.13	Do you have any experience using the alternate method?	No	Not on this make vehicle
4.13a	If so, has it worked to your satisfaction?	NA	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.13b	If not, please explain in the "Notes" column.	<input data-bbox="898 363 1045 415" type="text"/>	
<p>In the space below, please provide any general comments about reprogramming and reinitialization information.</p>			
<p>Segment 5: Structure and Cost of OEM Websites EPA regulations require that OEM websites be available for short-term, mid-term and long-term access for set fees. The questions in this segment are intended to gain insight into how the OEMs have structured their sites and the fees associated with accessing these sites.</p> <p>For Questions 5.1 to 5.6, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. For the remaining Questions 5.7 to 5.12 select the best answer from the list provided. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).</p>			

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
5.1	Does the website have short-term, mid-term, and long-term access to service information?	<input type="text" value="No"/>	
5.2	Were you able to access the entire site?	<input type="text" value="No"/>	Only with the dealer password not my own subscription and I could not find how to upgrade mine.
5.2a	Please identify areas that you could not access for the initial fee (such as reprogramming information) in the "Notes" column.	<input type="text" value="Yes"/>	Most information under my subscription was accessible except reprogramming and its information. My subscription is free of charge.
5.3	Although downloading information is not explicitly required by EPA regulations, did the website allow you to save and store any information to your computer?	<input type="text" value="Yes"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
5.3a	If so, please identify the information or documents that were downloadable in the "Notes" column.	<input type="text" value="Yes"/>	Flow charts for trouble codes
5.4	Were you able to print the information from the website?	<input type="text" value="Yes"/>	
5.5	Audi, Porsche, and Volkswagen websites require the purchase of individual documents to access repair information. For the purposes of this evaluation, how many individual documents would you have had to purchase to acquire all of the information you needed to perform the repair?	<input type="text" value="Yes"/>	Unless it required reprogramming
5.5a	What would have been the total cost of those documents? Please identify in the "Notes" column.	<input type="text" value="NA"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
5.5b	What emissions repair were you trying to do? Please identify in the "Notes" column.	<input type="text" value="Yes"/>	P0442 Evap fault
5.5c	Some manufacturer websites require the purchase of individual documents for downloading before they can be fully viewed. In some cases, only the table of contents is available for viewing before the purchase is made. Did you purchase documents that did not contain the information you were seeking? If yes, then please identify the document and the cost of that document in the "Notes" column.	<input type="text" value="No"/>	No purchase needed
5.6	Have you purchased service information, training materials, TSBs, CDs, videos, CD-ROMs, etc. from the website?	<input type="text" value="No"/>	
5.6a	If so, indicate in the "Notes" column the number and description of materials purchased.	<input type="text" value="NA"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (select from the list or insert NA)	Notes
5.7	<p>Does your shop specialize in vehicle repairs from specific OEMs?</p> <p>1. Asian</p> <p>2. European</p> <p>3. Domestic</p> <p>4. We specialize in vehicles from a single OEM, _____ . Please list that OEM.</p> <p>5. We service vehicles from all OEMs and do not specialize in any specific OEMs or group of OEMs.</p>	<input type="text" value="5 All"/>	
5.8	<p>What is your primary source for electronic service information?</p> <p>1. Aftermarket (e.g., ALLDATA, Mitchell1, etc.)</p> <p>2. OEM Websites</p> <p>3. Other, please list in the "Notes" column.</p>	<input type="text" value="Aftermarket"/>	AllData
5.9	<p>How much do you spend for an annual subscription to your primary source listed above?</p> <p>1. \$0 - \$500</p> <p>2. \$500 - \$1,000</p> <p>3. \$1,000 - \$2,000</p> <p>4. Over \$2,000</p>	<input type="text" value="over \$2,000"/>	\$2,280.00 per year

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
If you use an aftermarket service provider as your primary source of service information, please respond to Questions 5.10 to 5.12.			
5.10	<p>What is the primary reason for selecting the primary source listed in question 5.8?</p> <ol style="list-style-type: none"> 1. Completeness for the brands I service 2. Experience/Familiarity with the product 3. Available off-line 4. Common organization of information for all manufacturers 5. Price 6. Other, please list in the "Notes" column. 	<input type="text" value="1 Completeness"/>	
5.11	<p>Approximately how many times do you access an OEM website?</p> <ol style="list-style-type: none"> 1. Never 2. 1 to 5 times monthly 3. 5 to 10 times monthly 4. 10 to 20 times monthly 5. Over 20 times monthly 	<input type="text" value="1 to 5"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
6.1	Does the website contain information describing how to use the website? Possible sources of such information could be tutorials, "help" links, or lists of "frequently asked questions" (FAQ).	<input type="text" value="Yes"/>	
6.1a	If so, is the information relevant, useful, and readily accessible? Please identify where the information is located in the "Notes" column.	<input type="text" value="Yes"/>	
6.2	The "contact us" link is required to allow users to report problems, omissions or errors with the website, not to assist in vehicle trouble shooting or technical assistance. Does the website provide a "contact us" link for questions and/or reporting of problems, omissions or errors?	<input type="text" value="Yes"/>	
6.2a	Have you attempted to use the "contact us" link?	<input type="text" value="Yes"/>	TO inquire about J2534 reprogramming

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
6.2b	Have you received the desired information or answer to your question within 48 hours?	Yes	
6.3	Is training information available on the website?	Yes	
6.3a	Are lists and sources (contacts or ordering information) identified for training information which is not Internet capable?	Yes	
6.4	Is information available on the website listing available factory tools and ordering information?	Yes	Links for this are on the home page

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
6.5	Did you attempt to find information which was unavailable on the website?	<input type="text" value="Yes"/>	J2534 reprogramming
6.5a	If so, please identify in the "Notes" column what information you were seeking, how you conducted your search, and results (or lack thereof) you experienced.	<input type="text" value="Yes"/>	search through index, used search button and contact us
6.5b	Are you aware of other information which may not be available on the website? Please identify in the "Notes" column.	<input type="text" value="No"/>	

(cont.)
