

**OEM Audit Questionnaires Received
for the
Saab Service Information Website**

August 2006

OEM Audit Questionnaire

Name	Saab_Auditor 2
OEM Website Audited	SAAB
Date Audit Completed	Mar 5, 2006
Browser and Version Used	SBC/Yahoo DSL version 6.00-ADSX I.E. 6.0
Operating System and Version Used	XPhome SP2

General Instructions

This questionnaire was designed by the OEM Website Audit Steering Committee in order to seek an assessment of the data elements and information that OEMs are required to include on their websites with respect to OBD systems and emission-related repairs.

The questions have been organized into six separate segments, and each one is preceded by introductory text that explains the intent of the questions within that segment. Prior to providing your responses for the questions within a particular segment, please read the instructions specific to that segment.

Please answer the questions in each segment to the best of your ability with complete and accurate information. Note that the type of response requested varies depending on the segment and question. For Segments 1 through 5 (questions 5.1 to 5.6) and Segment 6, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. Also, for Segment 1, answer the questions in an additional "Response" column by inserting a ranking between 1 (poor) and 5 (excellent).

For the remaining questions in Segment 5, (questions 5.7 to 5.12) select the best answer from the list provided. For all questions in Segments 1 through 6, you may use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

You have been requested to provide your browser and operating system above since this may be helpful to the Steering Committee in evaluating the audit results in the context of potential problems associated with the incompatibility of certain browsers or operating systems. In order to reduce the likelihood that problems encountered during your audit of the OEM website are due to your browser, the Steering Committee recommends that Internet Explorer be used when evaluating the OEM website.

The public reporting and record keeping burden for this collection of information is estimated to average 2 hours per response. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. To comment on this collection contact the Director, Collection Strategies Division (2822T), 1200 Pennsylvania Ave. NW, Washington, DC 20460. Include the OMB control number in any correspondence. Do not send the completed survey to this address.

Draft OEM Audit Questionnaire

Segment 1: Ease of Use, Accessibility, and Website Navigation

EPA regulations require that OEMs launch websites that meet certain use and accessibility and navigation requirements. The questions in this segment are intended to gain insight into your experiences with searching, navigating, and accessing the information that you need.

For Segment 1 enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. Also, for Segment 1, answer the questions in an additional "Response" column by inserting a ranking between 1 (poor) and 5 (excellent). You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Response (1-5 ranking, or NA)	Notes
1.1	Does the website provide users with a description of the minimum computer hardware and software needed by the user to access that OEM's information (e.g., computer processor speed and operating system software)? This description or a link to it should appear when users first log on to the home page of the OEM's website.	<input type="text" value="Yes"/>	<input type="text" value="3"/>	
1.2	Did the website allow you to search the OEM website by various topics including but not limited to model, model year, key words or phrases, etc.?	<input type="text" value="Yes"/>	<input type="text" value="5"/>	
1.3	Did the website provide accessibility using common, readily available software and shall not require the use of proprietary software, hardware, viewers, or browsers?	<input type="text" value="Yes"/>	<input type="text" value="3"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Response (1-5 ranking, or NA)	Notes
1.3a	Did the OEM website provide hyperlinks to any plug-ins, viewers or browsers (e.g., Adobe Acrobat or Netscape) needed to access the OEM website?	No	NA	
1.4	Did you have any difficulty connecting to the website?	No	4	
1.5	Were you able to navigate the website without returning to the OEM service information home page or a search engine in order to access a different portion of the site?	Yes	4	
1.6	If you were a first time user, does the website involve a waiting period for registration to receive a password, PIN code, or some other approval (such as PayPal)?	No	5	

(cont.)

Draft OEM Audit Questionnaire (cont.)

In the space below, please provide any general comments about ease of use, accessibility, and website navigation.

Very easy to use, no problems what so ever to navigate web site

Segment 2: OBD System Monitors

EPA regulations require that OEMs make available information on OBD system monitors such as diagnostic trouble codes and enable criteria. The questions in this segment are intended to gain insight into the availability of this information on the sites.

For Segment 2, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Notes
2.1	Are there descriptions of all the OBD monitors and their operation?	Yes	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
2.1a	Did any of these monitor descriptions lack sufficient information? If so, please explain in the "Notes" column.	<input type="text" value="No"/>	
2.2	Were you able to find a description of all parameters (strategies) being monitored? Parameters can refer either to PID descriptions or the general monitoring strategies of the ECU.	<input type="text" value="Yes"/>	
2.3	Was there a list of Diagnostic Trouble Codes relating to these monitors?	<input type="text" value="NA"/>	I did not reference that section so I can not comment fairly
2.3a	Did you find the list sufficient to assist in the diagnosis and/or repair of the vehicle? If your answer is "No" please explain in the "Notes" column.	<input type="text" value="Yes"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
2.4	Were you able to determine the enable criteria for each monitor?	<input data-bbox="900 370 1045 418" type="text" value="Yes"/>	
2.5	Are the sequence, execution frequency, and duration of the monitor explained?	<input data-bbox="900 605 1045 654" type="text" value="Yes"/>	
2.6	Were you able to find the malfunction thresholds for the monitor?	<input data-bbox="900 841 1045 889" type="text" value="Yes"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

In the space below, please provide any general comments about OBD System Monitors.

Segment 3: OBD Repair

EPA regulations require that OEMs make available basic service and repair information such as service manuals and TSBs. Some of the questions in this segment are intended to provide insight into the availability of standard service information.

In addition, EPA regulations require that OEMs make available information related to the functioning of the OBD system itself such as "mode 6 data" and multiplexing. The questions in this segment are intended to gain insight into the availability of this information on the sites.

For Segment 3, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Notes
3.1	Does the website provide information necessary to interpret "mode 6" data available in generic scan tool modes?	<input type="text" value="Yes"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
3.1a	If so, was this information useful? Please use the "Notes" column to identify why or why not.	<input type="text" value="Yes"/>	
3.2	Does the website provide sufficient diagnostic and repair information for any and all DTCs encountered?	<input type="text" value="Yes"/>	
3.3	Are descriptions of OEM-specific DTCs (i.e., P1XXX codes) available?	<input type="text" value="Yes"/>	
3.4	Are technical service bulletins readily available?	<input type="text" value="Yes"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
3.5	Are trouble shooting guides or trouble shooting information available? For example, code charts, diagnostic and repair information, or fault finding logic.	<input data-bbox="898 370 1045 418" type="text" value="Yes"/>	
<p>In the space below, please provide any general comments about OBD Repair.</p>			

(cont.)

Draft OEM Audit Questionnaire (cont.)

Segment 4: Reprogramming and Reinitialization Information

EPA regulations require that OEMs make available advanced repair and diagnostic capabilities such as reprogramming (installing new or updated software during replacement of programmable modules such as PCMs or updating software or parameters within the software of in-service programmable modules) and reinitialization (reinitialization within the regulation would relate to units such as instrument panels, body control units, anti-theft immobilizers, etc. which would directly affect the ability of the vehicle to start/run within the original design parameters). Questions in this segment are intended to provide insight into the availability of the information, equipment, and tools needed to perform these services.

For Segment 4, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Reprogramming (This is also referred to as "Flashing" or software update.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.1	Are you able to find information on tools needed to perform reprogramming?	Yes	
4.2	Are you able to find the procedures to perform reprogramming?	Yes	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.3	If reprogramming is performed using a J2534 device was the software available to communicate between the device and the PC?	NA	
4.4	Is the information to select the proper calibration for the vehicle available?	Yes	
4.5	Is the vehicle calibration available?	Yes	
4.6	Have you performed reprogramming services within the last 12 months for this OEM?	No	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.7	If applicable, were you able to perform a successful update/reprogram?	NA	
Reinitialization (This refers to the ability to restart a vehicle after the completion of an emissions-related repair.)			
4.8	Does this OEM require initialization or reinitialization when the ECU is replaced? If no, skip to Segment 5. For the purposes of this audit, initialization or reinitialization refers to the need to reset a vehicle's security systems by means of an ignition key or access code to allow a vehicle to be restarted after the completion of emissions-related repairs.	NA	
4.9	Are you able to find information on tools needed to perform reinitialization?	NA	
4.10	Are you able to find the procedures to perform reinitialization?	NA	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.11	Have you performed reinitialization services within the last 12 months for this OEM?	No	
Answer the following two questions, 4.12 and 4.13, only if you are performing an audit of the Honda/Acura, VW/Audi, Mitsubishi, Chrysler, and Land Rover websites.			
4.12	EPA regulations allow for OEMs to offer an alternative method of reinitialization with prior approval. These companies have received approval to lease their OEM-specific scan tool to the aftermarket to perform this service. Are you able to find information about alternate methods and links to the source of that method?	<input type="text"/>	
4.13	Do you have any experience using the alternate method?	<input type="text"/>	
4.13a	If so, has it worked to your satisfaction?	<input type="text"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.13b	If not, please explain in the "Notes" column.	<input data-bbox="898 363 1045 415" type="text"/>	
<p>In the space below, please provide any general comments about reprogramming and reinitialization information.</p>			
<p>Segment 5: Structure and Cost of OEM Websites EPA regulations require that OEM websites be available for short-term, mid-term and long-term access for set fees. The questions in this segment are intended to gain insight into how the OEMs have structured their sites and the fees associated with accessing these sites.</p> <p>For Questions 5.1 to 5.6, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. For the remaining Questions 5.7 to 5.12 select the best answer from the list provided. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).</p>			

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
5.1	Does the website have short-term, mid-term, and long-term access to service information?	Yes	
5.2	Were you able to access the entire site?	No	
5.2a	Please identify areas that you could not access for the initial fee (such as reprogramming information) in the "Notes" column.	NA	did not try sorry
5.3	Although downloading information is not explicitly required by EPA regulations, did the website allow you to save and store any information to your computer?	NA	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
5.3a	If so, please identify the information or documents that were downloadable in the "Notes" column.	NA	
5.4	Were you able to print the information from the website?	Yes	
5.5	Audi, Porsche, and Volkswagen websites require the purchase of individual documents to access repair information. For the purposes of this evaluation, how many individual documents would you have had to purchase to acquire all of the information you needed to perform the repair?	NA	
5.5a	What would have been the total cost of those documents? Please identify in the "Notes" column.	NA	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
5.5b	What emissions repair were you trying to do? Please identify in the "Notes" column.	NA	
5.5c	Some manufacturer websites require the purchase of individual documents for downloading before they can be fully viewed. In some cases, only the table of contents is available for viewing before the purchase is made. Did you purchase documents that did not contain the information you were seeking? If yes, then please identify the document and the cost of that document in the "Notes" column.	NA	
5.6	Have you purchased service information, training materials, TSBs, CDs, videos, CD-ROMs, etc. from the website?	No	
5.6a	If so, indicate in the "Notes" column the number and description of materials purchased.	NA	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (select from the list or insert NA)	Notes
5.7	<p>Does your shop specialize in vehicle repairs from specific OEMs?</p> <p>1. Asian</p> <p>2. European</p> <p>3. Domestic</p> <p>4. We specialize in vehicles from a single OEM, _____ . Please list that OEM.</p> <p>5. We service vehicles from all OEMs and do not specialize in any specific OEMs or group of OEMs.</p>	<input type="text" value="5 All"/>	
5.8	<p>What is your primary source for electronic service information?</p> <p>1. Aftermarket (e.g., ALLDATA, Mitchell1, etc.)</p> <p>2. OEM Websites</p> <p>3. Other, please list in the "Notes" column.</p>	<input type="text" value="Aftermarket"/>	
5.9	<p>How much do you spend for an annual subscription to your primary source listed above?</p> <p>1. \$0 - \$500</p> <p>2. \$500 - \$1,000</p> <p>3. \$1,000 - \$2,000</p> <p>4. Over \$2,000</p>	<input type="text" value="over \$2,000"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
If you use an aftermarket service provider as your primary source of service information, please respond to Questions 5.10 to 5.12.			
5.10	<p>What is the primary reason for selecting the primary source listed in question 5.8?</p> <ol style="list-style-type: none"> 1. Completeness for the brands I service 2. Experience/Familiarity with the product 3. Available off-line 4. Common organization of information for all manufacturers 5. Price 6. Other, please list in the "Notes" column. 	<input type="text" value="1 Completeness"/>	
5.11	<p>Approximately how many times do you access an OEM website?</p> <ol style="list-style-type: none"> 1. Never 2. 1 to 5 times monthly 3. 5 to 10 times monthly 4. 10 to 20 times monthly 5. Over 20 times monthly 	<input type="text" value="Never"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
6.1	Does the website contain information describing how to use the website? Possible sources of such information could be tutorials, "help" links, or lists of "frequently asked questions" (FAQ).	<input type="text" value="Yes"/>	
6.1a	If so, is the information relevant, useful, and readily accessible? Please identify where the information is located in the "Notes" column.	<input type="text" value="Yes"/>	
6.2	The "contact us" link is required to allow users to report problems, omissions or errors with the website, not to assist in vehicle trouble shooting or technical assistance. Does the website provide a "contact us" link for questions and/or reporting of problems, omissions or errors?	<input type="text" value="NA"/>	
6.2a	Have you attempted to use the "contact us" link?	<input type="text" value="No"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
6.2b	Have you received the desired information or answer to your question within 48 hours?	NA	
6.3	Is training information available on the website?	Yes	
6.3a	Are lists and sources (contacts or ordering information) identified for training information which is not Internet capable?	NA	
6.4	Is information available on the website listing available factory tools and ordering information?	Yes	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
6.5	Did you attempt to find information which was unavailable on the website?	No	
6.5a	If so, please identify in the "Notes" column what information you were seeking, how you conducted your search, and results (or lack thereof) you experienced.	NA	
6.5b	Are you aware of other information which may not be available on the website? Please identify in the "Notes" column.	No

OEM Audit Questionnaire

Name	Saab_Auditor 5
OEM Website Audited	Saab
Date Audit Completed	2-12-06
Browser and Version Used	Internet Explorer v6.0
Operating System and Version Used	Win2000

General Instructions

This questionnaire was designed by the OEM Website Audit Steering Committee in order to seek an assessment of the data elements and information that OEMs are required to include on their websites with respect to OBD systems and emission-related repairs.

The questions have been organized into six separate segments, and each one is preceded by introductory text that explains the intent of the questions within that segment. Prior to providing your responses for the questions within a particular segment, please read the instructions specific to that segment.

Please answer the questions in each segment to the best of your ability with complete and accurate information. Note that the type of response requested varies depending on the segment and question. For Segments 1 through 5 (questions 5.1 to 5.6) and Segment 6, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. Also, for Segment 1, answer the questions in an additional "Response" column by inserting a ranking between 1 (poor) and 5 (excellent).

For the remaining questions in Segment 5, (questions 5.7 to 5.12) select the best answer from the list provided. For all questions in Segments 1 through 6, you may use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

You have been requested to provide your browser and operating system above since this may be helpful to the Steering Committee in evaluating the audit results in the context of potential problems associated with the incompatibility of certain browsers or operating systems. In order to reduce the likelihood that problems encountered during your audit of the OEM website are due to your browser, the Steering Committee recommends that Internet Explorer be used when evaluating the OEM website.

The public reporting and record keeping burden for this collection of information is estimated to average 2 hours per response. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. To comment on this collection contact the Director, Collection Strategies Division (2822T), 1200 Pennsylvania Ave. NW, Washington, DC 20460. Include the OMB control number in any correspondence. Do not send the completed survey to this address.

Draft OEM Audit Questionnaire

Segment 1: Ease of Use, Accessibility, and Website Navigation

EPA regulations require that OEMs launch websites that meet certain use and accessibility and navigation requirements. The questions in this segment are intended to gain insight into your experiences with searching, navigating, and accessing the information that you need.

For Segment 1 enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. Also, for Segment 1, answer the questions in an additional "Response" column by inserting a ranking between 1 (poor) and 5 (excellent). You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Response (1-5 ranking, or NA)	Notes
1.1	Does the website provide users with a description of the minimum computer hardware and software needed by the user to access that OEM's information (e.g., computer processor speed and operating system software)? This description or a link to it should appear when users first log on to the home page of the OEM's website.	Yes	1	While I found a hardware requirement I was unable to access that page with the user name and password assigned.. Upon further searching another access was allowed. One most eventually figure out that the system runs on the wise operating system.
1.2	Did the website allow you to search the OEM website by various topics including but not limited to model, model year, key words or phrases, etc.?	No	1	There was no search but by model and year. Once into a model or year a search by key word was available
1.3	Did the website provide accessibility using common, readily available software and shall not require the use of proprietary software, hardware, viewers, or browsers?	NA	2	I'm not sure, there was a viewer offered as I entered and I used it. Thus I'm not sure whether I could have seen anything without it. I doubt it

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Response (1-5 ranking, or NA)	Notes
1.3a	Did the OEM website provide hyperlinks to any plug-ins, viewers or browsers (e.g., Adobe Acrobat or Netscape) needed to access the OEM website?	Yes	4	On entrance.
1.4	Did you have any difficulty connecting to the website?	No	4	
1.5	Were you able to navigate the website without returning to the OEM service information home page or a search engine in order to access a different portion of the site?	Yes	4	An outline path is established at the top of the page allowing backward movement to any previous page including the original model page.
1.6	If you were a first time user, does the website involve a waiting period for registration to receive a password, PIN code, or some other approval (such as PayPal)?	No	5	Acceptance was immediate with the approved password

(cont.)

Draft OEM Audit Questionnaire (cont.)

In the space below, please provide any general comments about ease of use, accessibility, and website navigation.

There is very little in the way of help information.

Segment 2: OBD System Monitors

EPA regulations require that OEMs make available information on OBD system monitors such as diagnostic trouble codes and enable criteria. The questions in this segment are intended to gain insight into the availability of this information on the sites.

For Segment 2, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Notes
2.1	Are there descriptions of all the OBD monitors and their operation?	No	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
2.1a	Did any of these monitor descriptions lack sufficient information? If so, please explain in the "Notes" column.	<input type="text" value="Yes"/>	There is no discussion of monitors. While fault code description are easy to find and understand. I found no description of the concept of a monitor. The concept of fault analysis is there and description of how the light is set and reset. Fault codes are described as to how they are monitored, but monitor results or terminology is not discussed
2.2	Were you able to find a description of all parameters (strategies) being monitored? Parameters can refer either to PID descriptions or the general monitoring strategies of the ECU.	<input type="text" value="Yes"/>	
2.3	Was there a list of Diagnostic Trouble Codes relating to these monitors?	<input type="text" value="No"/>	Codes are listed but not related to standard monitor nomenclature.
2.3a	Did you find the list sufficient to assist in the diagnosis and/or repair of the vehicle? If your answer is "No" please explain in the "Notes" column.	<input type="text" value="Yes"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
2.4	Were you able to determine the enable criteria for each monitor?	<input data-bbox="900 370 1045 418" type="text" value="Yes"/>	
2.5	Are the sequence, execution frequency, and duration of the monitor explained?	<input data-bbox="900 605 1045 654" type="text" value="Yes"/>	
2.6	Were you able to find the malfunction thresholds for the monitor?	<input data-bbox="900 841 1045 889" type="text" value="Yes"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

In the space below, please provide any general comments about OBD System Monitors.

I saw no mention of OBDII monitor nomenclature. Components are noted as to whether they are tested continuously or once a trip. other than fault code interpretations I don't see the description as being monitors or the status as tests.

Segment 3: OBD Repair

EPA regulations require that OEMs make available basic service and repair information such as service manuals and TSBs. Some of the questions in this segment are intended to provide insight into the availability of standard service information.

In addition, EPA regulations require that OEMs make available information related to the functioning of the OBD system itself such as "mode 6 data" and multiplexing. The questions in this segment are intended to gain insight into the availability of this information on the sites.

For Segment 3, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Notes
3.1	Does the website provide information necessary to interpret "mode 6" data available in generic scan tool modes?	<input type="text" value="No"/>	I saw no mention of Mode 6.

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
3.1a	If so, was this information useful? Please use the "Notes" column to identify why or why not.	NA	
3.2	Does the website provide sufficient diagnostic and repair information for any and all DTCs encountered?	Yes	The code information seems very detailed both to enabling criteria and duration or timing of testing
3.3	Are descriptions of OEM-specific DTCs (i.e., P1XXX codes) available?	Yes	
3.4	Are technical service bulletins readily available?	Yes	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
3.5	Are trouble shooting guides or trouble shooting information available? For example, code charts, diagnostic and repair information, or fault finding logic.	<input data-bbox="898 370 1045 418" type="text" value="Yes"/>	
<p>In the space below, please provide any general comments about OBD Repair.</p> <p>The information seems to be presented for easy access. It is tied to information about tooling and activation testing. Programming instructions and service bulletins are incorporated into the fault information. Wiring diagrams and component location and description are an easy link from any code.</p>			

(cont.)

Draft OEM Audit Questionnaire (cont.)

Segment 4: Reprogramming and Reinitialization Information

EPA regulations require that OEMs make available advanced repair and diagnostic capabilities such as reprogramming (installing new or updated software during replacement of programmable modules such as PCMs or updating software or parameters within the software of in-service programmable modules) and reinitialization (reinitialization within the regulation would relate to units such as instrument panels, body control units, anti-theft immobilizers, etc. which would directly affect the ability of the vehicle to start/run within the original design parameters). Questions in this segment are intended to provide insight into the availability of the information, equipment, and tools needed to perform these services.

For Segment 4, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Reprogramming (This is also referred to as "Flashing" or software update.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.1	Are you able to find information on tools needed to perform reprogramming?	<input type="text" value="Yes"/>	
4.2	Are you able to find the procedures to perform reprogramming?	<input type="text" value="Yes"/>	They seem to be clearly spelled out

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.3	If reprogramming is performed using a J2534 device was the software available to communicate between the device and the PC?	NA	I saw no mention of a pass through tool J2534
4.4	Is the information to select the proper calibration for the vehicle available?	Yes	The instructions are to enter separate software and verify with chassis number
4.5	Is the vehicle calibration available?	Yes	I presume the TIS2000 program for PC is available. It is not a part of the information web site.
4.6	Have you performed reprogramming services within the last 12 months for this OEM?	No	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.7	If applicable, were you able to perform a successful update/reprogram?	No	Through the audit access one does not get access to coding tooling or software, but it seems to be simple and available. Our shop has a Saab tool Tech2 but the software is not up to date and we do not have the TIS2000 software. We do not do many Saab vehicles
Reinitialization (This refers to the ability to restart a vehicle after the completion of an emissions-related repair.)			
4.8	Does this OEM require initialization or reinitialization when the ECU is replaced? If no, skip to Segment 5. For the purposes of this audit, initialization or reinitialization refers to the need to reset a vehicle's security systems by means of an ignition key or access code to allow a vehicle to be restarted after the completion of emissions-related repairs.	No	The setting up of keys is not needed for emissions but is not accessible as stated in the information system
4.9	Are you able to find information on tools needed to perform reinitialization?	Yes	They are not available to aftermarket
4.10	Are you able to find the procedures to perform reinitialization?	No	Not available, but not required for emissions work.

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.11	Have you performed reinitialization services within the last 12 months for this OEM?	No	
Answer the following two questions, 4.12 and 4.13, only if you are performing an audit of the Honda/Acura, VW/Audi, Mitsubishi, Chrysler, and Land Rover websites.			
4.12	EPA regulations allow for OEMs to offer an alternative method of reinitialization with prior approval. These companies have received approval to lease their OEM-specific scan tool to the aftermarket to perform this service. Are you able to find information about alternate methods and links to the source of that method?	<input type="text"/>	
4.13	Do you have any experience using the alternate method?	<input type="text"/>	
4.13a	If so, has it worked to your satisfaction?	<input type="text"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.13b	If not, please explain in the "Notes" column.	<input data-bbox="898 363 1045 415" type="text"/>	
<p>In the space below, please provide any general comments about reprogramming and reinitialization information.</p>			
<p>Segment 5: Structure and Cost of OEM Websites EPA regulations require that OEM websites be available for short-term, mid-term and long-term access for set fees. The questions in this segment are intended to gain insight into how the OEMs have structured their sites and the fees associated with accessing these sites.</p> <p>For Questions 5.1 to 5.6, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. For the remaining Questions 5.7 to 5.12 select the best answer from the list provided. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).</p>			

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
5.1	Does the website have short-term, mid-term, and long-term access to service information?	Yes	
5.2	Were you able to access the entire site?	Yes	
5.2a	Please identify areas that you could not access for the initial fee (such as reprogramming information) in the "Notes" column.	Yes	Reprogramming instructions are included but the actual programming requires separate software.
5.3	Although downloading information is not explicitly required by EPA regulations, did the website allow you to save and store any information to your computer?	Yes	It was very little though. Know of the documents are in pdf form and only a few items like wiring diagrams and pictures produced a print icon.

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
5.3a	If so, please identify the information or documents that were downloadable in the "Notes" column.	Yes	Wiring diagrams, pictures. Service bulletins didn't produce any guided print form. All pages are printable from a print screen function, but no documents seem to be printable.
5.4	Were you able to print the information from the website?	NA	As above
5.5	Audi, Porsche, and Volkswagen websites require the purchase of individual documents to access repair information. For the purposes of this evaluation, how many individual documents would you have had to purchase to acquire all of the information you needed to perform the repair?	NA	
5.5a	What would have been the total cost of those documents? Please identify in the "Notes" column.	NA	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
5.5b	What emissions repair were you trying to do? Please identify in the "Notes" column.	NA	None were being done at the moment I filled out this.
5.5c	Some manufacturer websites require the purchase of individual documents for downloading before they can be fully viewed. In some cases, only the table of contents is available for viewing before the purchase is made. Did you purchase documents that did not contain the information you were seeking? If yes, then please identify the document and the cost of that document in the "Notes" column.	NA	
5.6	Have you purchased service information, training materials, TSBs, CDs, videos, CD-ROMs, etc. from the website?	Yes	In the past we have bought daily access.
5.6a	If so, indicate in the "Notes" column the number and description of materials purchased.	Yes	Once 2 or 3 separate days to add to aftermarket information systems.

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (select from the list or insert NA)	Notes
5.7	<p>Does your shop specialize in vehicle repairs from specific OEMs?</p> <p>1. Asian</p> <p>2. European</p> <p>3. Domestic</p> <p>4. We specialize in vehicles from a single OEM, _____ . Please list that OEM.</p> <p>5. We service vehicles from all OEMs and do not specialize in any specific OEMs or group of OEMs.</p>	<input type="text" value="2 European"/>	<p>We are heavily specialized in MB and BMW with only about 5% of business from Saab</p>
5.8	<p>What is your primary source for electronic service information?</p> <p>1. Aftermarket (e.g., ALLDATA, Mitchell1, etc.)</p> <p>2. OEM Websites</p> <p>3. Other, please list in the "Notes" column.</p>	<input type="text" value="Other"/>	<p>We use Alldata and a serious amount of factory print information and purchahsed CD based info. We pay for one online subscription by year and most others by day as needed.</p>
5.9	<p>How much do you spend for an annual subscription to your primary source listed above?</p> <p>1. \$0 - \$500</p> <p>2. \$500 - \$1,000</p> <p>3. \$1,000 - \$2,000</p> <p>4. Over \$2,000</p>	<input type="text" value="over \$2,000"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
If you use an aftermarket service provider as your primary source of service information, please respond to Questions 5.10 to 5.12.			
5.10	<p>What is the primary reason for selecting the primary source listed in question 5.8?</p> <ol style="list-style-type: none"> 1. Completeness for the brands I service 2. Experience/Familiarity with the product 3. Available off-line 4. Common organization of information for all manufacturers 5. Price 6. Other, please list in the "Notes" column. 	1 Completeness	We spend most money on MB factory subscriptions, buying yearly diagnostic subscription and many daily information subscriptions.
5.11	<p>Approximately how many times do you access an OEM website?</p> <ol style="list-style-type: none"> 1. Never 2. 1 to 5 times monthly 3. 5 to 10 times monthly 4. 10 to 20 times monthly 5. Over 20 times monthly 	Over 20	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
5.12	<p>Do you typically subscribe to OEM websites? If so, please select the type of subscription from the list that you usually purchase.</p> <ol style="list-style-type: none"> 1. 24 - 72 hour subscription 2. Monthly subscription 3. Annual subscription 	<div style="border: 1px solid black; padding: 2px; width: fit-content;">24-72 hr</div>	
<p>In the space below, please provide any general comments about the structure and cost of OEM websites.</p> <p>We do very little Honda business, but due to the cost of its site we have a year subscription. It also has saved us from buying print material. We have most print and microfilm info on MB and BMW up till 1998 and considerable CD based info. If sites were in the 500 -1000 a year range we would buy MB and BMW. Untill then we use our resourses, alldata and daily subscriptions.</p>			
<p>Segment 6: General Information and Comments The questions in this segment are intended to gain insight into the OEM websites.</p>			

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
6.1	Does the website contain information describing how to use the website? Possible sources of such information could be tutorials, "help" links, or lists of "frequently asked questions" (FAQ).	<input type="text" value="No"/>	
6.1a	If so, is the information relevant, useful, and readily accessible? Please identify where the information is located in the "Notes" column.	<input type="text" value="NA"/>	
6.2	The "contact us" link is required to allow users to report problems, omissions or errors with the website, not to assist in vehicle trouble shooting or technical assistance. Does the website provide a "contact us" link for questions and/or reporting of problems, omissions or errors?	<input type="text" value="Yes"/>	
6.2a	Have you attempted to use the "contact us" link?	<input type="text" value="No"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
6.2b	Have you received the desired information or answer to your question within 48 hours?	NA	
6.3	Is training information available on the website?	Yes	
6.3a	Are lists and sources (contacts or ordering information) identified for training information which is not Internet capable?	Yes	
6.4	Is information available on the website listing available factory tools and ordering information?	Yes	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
6.5	Did you attempt to find information which was unavailable on the website?	No	
6.5a	If so, please identify in the "Notes" column what information you were seeking, how you conducted your search, and results (or lack thereof) you experienced.	NA	
6.5b	Are you aware of other information which may not be available on the website? Please identify in the "Notes" column.	Yes	It seems that all of the mode 5 and mode 6 information is absent from the site

(cont.)

Draft OEM Audit Questionnaire (cont.)

In the space below, please provide any general comments about the website or suggestions for improvement.

The site is pretty self explanatory, it could be better with a little indexing, but for a tech using it often it would be a waste. I sent in this summation of replies and then went back and noticed that there was never a question as to what car this was about. Maybe its noted some other way but I thought I would send again with the info that this was about the Saab website

OEM Audit Questionnaire

Name	Saab_Auditor 7
OEM Website Audited	volkswagen and saab
Date Audit Completed	march 08 2006
Browser and Version Used	mozilla firefox
Operating System and Version Used	windows xp home edition

General Instructions

This questionnaire was designed by the OEM Website Audit Steering Committee in order to seek an assessment of the data elements and information that OEMs are required to include on their websites with respect to OBD systems and emission-related repairs.

The questions have been organized into six separate segments, and each one is preceded by introductory text that explains the intent of the questions within that segment. Prior to providing your responses for the questions within a particular segment, please read the instructions specific to that segment.

Please answer the questions in each segment to the best of your ability with complete and accurate information. Note that the type of response requested varies depending on the segment and question. For Segments 1 through 5 (questions 5.1 to 5.6) and Segment 6, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. Also, for Segment 1, answer the questions in an additional "Response" column by inserting a ranking between 1 (poor) and 5 (excellent).

For the remaining questions in Segment 5, (questions 5.7 to 5.12) select the best answer from the list provided. For all questions in Segments 1 through 6, you may use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

You have been requested to provide your browser and operating system above since this may be helpful to the Steering Committee in evaluating the audit results in the context of potential problems associated with the incompatibility of certain browsers or operating systems. In order to reduce the likelihood that problems encountered during your audit of the OEM website are due to your browser, the Steering Committee recommends that Internet Explorer be used when evaluating the OEM website.

Draft OEM Audit Questionnaire

Segment 1: Ease of Use, Accessibility, and Website Navigation

EPA regulations require that OEMs launch websites that meet certain use and accessibility and navigation requirements. The questions in this segment are intended to gain insight into your experiences with searching, navigating, and accessing the information that you need. For Segment 1 enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. Also, for Segment 1, answer the questions in an additional "Response" column by inserting a ranking between 1 (poor) and 5 (excellent). You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Response (1-5 ranking, or NA)	Notes
1.1	Does the website provide users with a description of the minimum computer hardware and software needed by the user to access that OEM's information (e.g., computer processor speed and operating system software)? This description or a link to it should appear when users first log on to the home page of the OEM's website.	yes	4	
1.2	Did the website allow you to search the OEM website by various topics including but not limited to model, model year, key words or phrases, etc.?	yes	4	
1.3	Did the website provide accessibility using common, readily available software and shall not require the use of proprietary software, hardware, viewers, or browsers?	yes	4	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Response (1-5 ranking, or NA)	Notes
1.3a	Did the OEM website provide hyperlinks to any plug-ins, viewers or browsers (e.g., Adobe Acrobat or Netscape) needed to access the OEM website?	na		
1.4	Did you have any difficulty connecting to the website?	no	4	
1.5	Were you able to navigate the website without returning to the OEM service information home page or a search engine in order to access a different portion of the site?	yes	5	
1.6	If you were a first time user, does the website involve a waiting period for registration to receive a password, PIN code, or some other approval (such as PayPal)?	no		

(cont.)

Draft OEM Audit Questionnaire (cont.)

In the space below, please provide any general comments about ease of use, accessibility, and website navigation.

Segment 2: OBD System Monitors

EPA regulations require that OEMs make available information on OBD system monitors such as diagnostic trouble codes and enable criteria. The questions in this segment are intended to gain insight into the availability of this information on the sites.

For Segment 2, enter a Yes or No response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Notes
2.1	Are there descriptions of all the OBD monitors and their operation?	yes	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
2.1a	Did any of these monitor descriptions lack sufficient information? If so, please explain in the "Notes" column.	no	
2.2	Were you able to find a description of all parameters (strategies) being monitored? Parameters can refer either to PID descriptions or the general monitoring strategies of the ECU.	yes	
2.3	Was there a list of Diagnostic Trouble Codes relating to these monitors?	yes	
2.3a	Did you find the list sufficient to assist in the diagnosis and/or repair of the vehicle? If your answer is "No" please explain in the "Notes" column.	yes	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
2.4	Were you able to determine the enable criteria for each monitor?	yes	
2.5	Are the sequence, execution frequency, and duration of the monitor explained?	yes	
2.6	Were you able to find the malfunction thresholds for the monitor?	yes	

(cont.)

Draft OEM Audit Questionnaire (cont.)

In the space below, please provide any general comments about OBD System Monitors.

Segment 3: OBD Repair

EPA regulations require that OEMs make available basic service and repair information such as service manuals and TSBs. Some of the questions in this segment are intended to provide insight into the availability of standard service information.

In addition, EPA regulations require that OEMs make available information related to the functioning of the OBD system itself such as "mode 6 data" and multiplexing. The questions in this segment are intended to gain insight into the availability of this information on the sites.

For Segment 3, enter a Yes or No response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Notes
3.1	Does the website provide information necessary to interpret "mode 6" data available in generic scan tool modes?	na	have not used mode 6 on vw or saab

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
3.1a	If so, was this information useful? Please use the "Notes" column to identify why or why not.	na	
3.2	Does the website provide sufficient diagnostic and repair information for any and all DTCs encountered?	yes	
3.3	Are descriptions of OEM-specific DTCs (i.e., P1XXX codes) available?	yes	
3.4	Are technical service bulletins readily available?	yes	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
3.5	Are trouble shooting guides or trouble shooting information available? For example, code charts, diagnostic and repair information, or fault finding logic.	yes	
In the space below, please provide any general comments about OBD Repair.			

(cont.)

Draft OEM Audit Questionnaire (cont.)

Segment 4: Reprogramming and Reinitialization Information

EPA regulations require that OEMs make available advanced repair and diagnostic capabilities such as reprogramming (installing new or updated software during replacement of programmable modules such as PCMs or updating software or parameters within the software of in-service programmable modules) and reinitialization (reinitialization within the regulation would relate to units such as instrument panels, body control units, anti-theft immobilizers, etc which would directly affect the ability of the vehicle to start/run within the original design parameters.) Questions in this segment are intended to provide insight into the availability of the information, equipment, and tools needed to perform these services.

For Segment 4, enter a Yes or No response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Reprogramming (This is also referred to as "Flashing" or software update.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.1	Are you able to find information on tools needed to perform reprogramming?	na	have not performed reprograming on vw or saab
4.2	Are you able to find the procedures to perform reprogramming?	na	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.3	If reprogramming is performed using a J2534 device was the software available to communicate between the device and the PC?	na	
4.4	Is the information to select the proper calibration for the vehicle available?	na	
4.5	Is the vehicle calibration available?	na	
4.6	Have you performed reprogramming services within the last 12 months for this OEM?	na	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.7	If applicable, were you able to perform a successful update/reprogram?	na	
Reinitialization (This refers to the ability to restart a vehicle after the completion of an emissions-related repair.)			
4.8	Does this OEM require initialization or reinitialization when the ECU is replaced? If no, skip to Segment 5. For the purposes of this audit, initialization or reinitialization refers to the need to reset a vehicle's security systems by means of an ignition key or access code to allow a vehicle to be restarted after the completion of emissions-related repairs.	na	have not replaced ecu on saab or vw
4.9	Are you able to find information on tools needed to perform reinitialization?	na	
4.10	Are you able to find the procedures to perform reinitialization?	na	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.11	Have you performed reinitialization services within the last 12 months for this OEM?	no	
Answer the following two questions, 4.12 and 4.13, only if you are performing an audit of the Honda/Acura, VW/Audi, Mitsubishi, Chrysler, and Land Rover websites.			
4.12	EPA regulations allow for OEMs to offer an alternative method of reinitialization with prior approval. These companies have received approval to lease their OEM-specific scan tool to the aftermarket to perform this service. Are you able to find information about alternate methods and links to the source of that method?	na	
4.13	Do you have any experience using the alternate method?	no	
4.13a	If so, has it worked to your satisfaction?	na	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.13b	If not, please explain in the "Notes" column.	na	
<p>In the space below, please provide any general comments about reprogramming and reinitialization information.</p>			
<p>Segment 5: Structure and Cost of OEM Websites EPA regulations require that OEM websites be available for short-term, mid-term and long-term access for set fees. The questions in this segment are intended to gain insight into how the OEMs have structured their sites and the fees associated with accessing these sites.</p> <p>For Questions 5.1 to 5.6, enter a Yes or No response and explain each "No" response in the "Notes" column. For the remaining Questions 5.7 to 5.12 select the best answer from the list provided. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).</p>			

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
5.1	Does the website have short-term, mid-term, and long-term access to service information?	yes	
5.2	Were you able to access the entire site?	yes	
5.2a	Please identify areas that you could not access for the initial fee (such as reprogramming information) in the "Notes" column.	na	
5.3	Although downloading information is not explicitly required by EPA regulations, did the website allow you to save and store any information to your computer?	na	did not attempt to save any information

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
5.3a	If so, please identify the information or documents that were downloadable in the "Notes" column.	na	
5.4	Were you able to print the information from the website?	no	a printer is not connected to the pc that was used to access the website
5.5	Audi, Porsche, and Volkswagen websites require the purchase of individual documents to access repair information. For the purposes of this evaluation, how many individual documents would you have had to purchase to acquire all of the information you needed to perform the repair?	na	
5.5a	What would have been the total cost of those documents? Please identify in the "Notes" column.	na	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
5.5b	What emissions repair were you trying to do? Please identify in the "Notes" column.	na	No specific emission failure mostly mil lamp and poor driveability
5.5c	Some manufacturer websites require the purchase of individual documents for downloading before they can be fully viewed. In some cases, only the table of contents is available for viewing before the purchase is made. Did you purchase documents that did not contain the information you were seeking? If yes, then please identify the document and the cost of that document in the "Notes" column.	no	
5.6	Have you purchased service information, training materials, TSBs, CDs, videos, CD-ROMs, etc. from the website?	no	
5.6a	If so, indicate in the "Notes" column the number and description of materials purchased.	na

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
6.1	Does the website contain information describing how to use the website? Possible sources of such information could be tutorials, "help" links, or lists of "frequently asked questions" (FAQ).	yes	
6.1a	If so, is the information relevant, useful, and readily accessible? Please identify where the information is located in the "Notes" column.	yes	
6.2	The "contact us" link is required to allow users to report problems, omissions or errors with the website, not to assist in vehicle trouble shooting or technical assistance. Does the website provide a "contact us" link for questions and/or reporting of problems, omissions or errors?	yes	
6.2a	Have you attempted to use the "contact us" link?	no	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
6.2b	Have you received the desired information or answer to your question within 48 hours?	na	
6.3	Is training information available on the website?	yes	
6.3a	Are lists and sources (contacts or ordering information) identified for training information which is not Internet capable?	yes	
6.4	Is information available on the website listing available factory tools and ordering information?	yes	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
6.5	Did you attempt to find information which was unavailable on the website?	no	
6.5a	If so, please identify in the "Notes" column what information you were seeking, how you conducted your search, and results (or lack thereof) you experienced.	na	
6.5b	Are you aware of other information which may not be available on the website? Please identify in the "Notes" column.	na

In the space below, please provide any general comments about the website or suggestions for improvement.
Thank you for allowing me to participate in the audit the vw site was very helpful.

OEM Audit Questionnaire

Name	Saab_Auditor 8
OEM Website Audited	SAAB
Date Audit Completed	March 6 2006
Browser and Version Used	explorer
Operating System and Version Used	xp

General Instructions

This questionnaire was designed by the OEM Website Audit Steering Committee in order to seek an assessment of the data elements and information that OEMs are required to include on their websites with respect to OBD systems and emission-related repairs.

The questions have been organized into six separate segments, and each one is preceded by introductory text that explains the intent of the questions within that segment. Prior to providing your responses for the questions within a particular segment, please read the instructions specific to that segment.

Please answer the questions in each segment to the best of your ability with complete and accurate information. Note that the type of response requested varies depending on the segment and question. For Segments 1 through 5 (questions 5.1 to 5.6) and Segment 6, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. Also, for Segment 1, answer the questions in an additional "Response" column by inserting a ranking between 1 (poor) and 5 (excellent).

For the remaining questions in Segment 5, (questions 5.7 to 5.12) select the best answer from the list provided. For all questions in Segments 1 through 6, you may use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

You have been requested to provide your browser and operating system above since this may be helpful to the Steering Committee in evaluating the audit results in the context of potential problems associated with the incompatibility of certain browsers or operating systems. In order to reduce the likelihood that problems encountered during your audit of the OEM website are due to your browser, the Steering Committee recommends that Internet Explorer be used when evaluating the OEM website.

The public reporting and record keeping burden for this collection of information is estimated to average 2 hours per response. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. To comment on this collection contact the Director, Collection Strategies Division (2822T), 1200 Pennsylvania Ave. NW, Washington, DC 20460. Include the OMB control number in any correspondence. Do not send the completed survey to this address.

Draft OEM Audit Questionnaire

Segment 1: Ease of Use, Accessibility, and Website Navigation

EPA regulations require that OEMs launch websites that meet certain use and accessibility and navigation requirements. The questions in this segment are intended to gain insight into your experiences with searching, navigating, and accessing the information that you need.

For Segment 1 enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. Also, for Segment 1, answer the questions in an additional "Response" column by inserting a ranking between 1 (poor) and 5 (excellent). You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Response (1-5 ranking, or NA)	Notes
1.1	Does the website provide users with a description of the minimum computer hardware and software needed by the user to access that OEM's information (e.g., computer processor speed and operating system software)? This description or a link to it should appear when users first log on to the home page of the OEM's website.	<input type="text" value="Yes"/>	<input type="text" value="5"/>	
1.2	Did the website allow you to search the OEM website by various topics including but not limited to model, model year, key words or phrases, etc.?	<input type="text" value="Yes"/>	<input type="text" value="2"/>	
1.3	Did the website provide accessibility using common, readily available software and shall not require the use of proprietary software, hardware, viewers, or browsers?	<input type="text" value="Yes"/>	<input type="text" value="5"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Response (1-5 ranking, or NA)	Notes
1.3a	Did the OEM website provide hyperlinks to any plug-ins, viewers or browsers (e.g., Adobe Acrobat or Netscape) needed to access the OEM website?	Yes	4	
1.4	Did you have any difficulty connecting to the website?	Yes	3	during audit adress was changed,
1.5	Were you able to navigate the website without returning to the OEM service information home page or a search engine in order to access a different portion of the site?	Yes		
1.6	If you were a first time user, does the website involve a waiting period for registration to receive a password, PIN code, or some other approval (such as PayPal)?	No		

(cont.)

Draft OEM Audit Questionnaire (cont.)

In the space below, please provide any general comments about ease of use, accessibility, and website navigation.

Segment 2: OBD System Monitors

EPA regulations require that OEMs make available information on OBD system monitors such as diagnostic trouble codes and enable criteria. The questions in this segment are intended to gain insight into the availability of this information on the sites.

For Segment 2, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Notes
2.1	Are there descriptions of all the OBD monitors and their operation?	No	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
2.1a	Did any of these monitor descriptions lack sufficient information? If so, please explain in the "Notes" column.	<input type="text" value="No"/>	
2.2	Were you able to find a description of all parameters (strategies) being monitored? Parameters can refer either to PID descriptions or the general monitoring strategies of the ECU.	<input type="text" value="No"/>	
2.3	Was there a list of Diagnostic Trouble Codes relating to these monitors?	<input type="text" value="Yes"/>	
2.3a	Did you find the list sufficient to assist in the diagnosis and/or repair of the vehicle? If your answer is "No" please explain in the "Notes" column.	<input type="text" value="Yes"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
2.4	Were you able to determine the enable criteria for each monitor?	<input type="text"/>	
2.5	Are the sequence, execution frequency, and duration of the monitor explained?	<input type="text"/>	
2.6	Were you able to find the malfunction thresholds for the monitor?	<input type="text"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

In the space below, please provide any general comments about OBD System Monitors.

Segment 3: OBD Repair

EPA regulations require that OEMs make available basic service and repair information such as service manuals and TSBs. Some of the questions in this segment are intended to provide insight into the availability of standard service information.

In addition, EPA regulations require that OEMs make available information related to the functioning of the OBD system itself such as "mode 6 data" and multiplexing. The questions in this segment are intended to gain insight into the availability of this information on the sites.

For Segment 3, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Question Number	Question	Response (Yes, No, or NA)	Notes
3.1	Does the website provide information necessary to interpret "mode 6" data available in generic scan tool modes?	<input data-bbox="900 1166 1047 1214" type="text"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
3.1a	If so, was this information useful? Please use the "Notes" column to identify why or why not.	<input type="text"/>	
3.2	Does the website provide sufficient diagnostic and repair information for any and all DTCs encountered?	<input type="text"/>	
3.3	Are descriptions of OEM-specific DTCs (i.e., P1XXX codes) available?	<input type="text"/>	
3.4	Are technical service bulletins readily available?	Yes	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
3.5	Are trouble shooting guides or trouble shooting information available? For example, code charts, diagnostic and repair information, or fault finding logic.	<input data-bbox="898 370 1045 418" type="text" value="Yes"/>	
<p>In the space below, please provide any general comments about OBD Repair.</p>			

(cont.)

Draft OEM Audit Questionnaire (cont.)

Segment 4: Reprogramming and Reinitialization Information

EPA regulations require that OEMs make available advanced repair and diagnostic capabilities such as reprogramming (installing new or updated software during replacement of programmable modules such as PCMs or updating software or parameters within the software of in-service programmable modules) and reinitialization (reinitialization within the regulation would relate to units such as instrument panels, body control units, anti-theft immobilizers, etc. which would directly affect the ability of the vehicle to start/run within the original design parameters). Questions in this segment are intended to provide insight into the availability of the information, equipment, and tools needed to perform these services.

For Segment 4, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).

Reprogramming (This is also referred to as "Flashing" or software update.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.1	Are you able to find information on tools needed to perform reprogramming?	Yes	
4.2	Are you able to find the procedures to perform reprogramming?	Yes	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.3	If reprogramming is performed using a J2534 device was the software available to communicate between the device and the PC?	<input type="text"/>	unknown
4.4	Is the information to select the proper calibration for the vehicle available?	<input type="text"/>	
4.5	Is the vehicle calibration available?	<input type="text"/>	
4.6	Have you performed reprogramming services within the last 12 months for this OEM?	No	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.7	If applicable, were you able to perform a successful update/reprogram?	<input type="text"/>	
Reinitialization (This refers to the ability to restart a vehicle after the completion of an emissions-related repair.)			
4.8	Does this OEM require initialization or reinitialization when the ECU is replaced? If no, skip to Segment 5. For the purposes of this audit, initialization or reinitialization refers to the need to reset a vehicle's security systems by means of an ignition key or access code to allow a vehicle to be restarted after the completion of emissions-related repairs.	<input type="text" value="Yes"/>	
4.9	Are you able to find information on tools needed to perform reinitialization?	<input type="text" value="Yes"/>	
4.10	Are you able to find the procedures to perform reinitialization?	<input type="text" value="Yes"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.11	Have you performed reinitialization services within the last 12 months for this OEM?	No	
Answer the following two questions, 4.12 and 4.13, only if you are performing an audit of the Honda/Acura, VW/Audi, Mitsubishi, Chrysler, and Land Rover websites.			
4.12	EPA regulations allow for OEMs to offer an alternative method of reinitialization with prior approval. These companies have received approval to lease their OEM-specific scan tool to the aftermarket to perform this service. Are you able to find information about alternate methods and links to the source of that method?	<input type="text"/>	
4.13	Do you have any experience using the alternate method?	No	
4.13a	If so, has it worked to your satisfaction?	<input type="text"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
4.13b	If not, please explain in the "Notes" column.	<input data-bbox="898 363 1045 415" type="text"/>	
<p>In the space below, please provide any general comments about reprogramming and reinitialization information.</p>			
<p>Segment 5: Structure and Cost of OEM Websites EPA regulations require that OEM websites be available for short-term, mid-term and long-term access for set fees. The questions in this segment are intended to gain insight into how the OEMs have structured their sites and the fees associated with accessing these sites.</p> <p>For Questions 5.1 to 5.6, enter a "Yes" or "No" response and explain each "No" response in the "Notes" column. For the remaining Questions 5.7 to 5.12 select the best answer from the list provided. You may also use the "Notes" column to explain your response or to provide additional information. If you cannot answer a specific question or if the question does not apply in the context of your needs and experience, please enter NA (not applicable).</p>			

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
5.1	Does the website have short-term, mid-term, and long-term access to service information?	Yes	
5.2	Were you able to access the entire site?	Yes	
5.2a	Please identify areas that you could not access for the initial fee (such as reprogramming information) in the "Notes" column.		
5.3	Although downloading information is not explicitly required by EPA regulations, did the website allow you to save and store any information to your computer?	No	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
5.3a	If so, please identify the information or documents that were downloadable in the "Notes" column.	<input type="text"/>	
5.4	Were you able to print the information from the website?	Yes	
5.5	Audi, Porsche, and Volkswagen websites require the purchase of individual documents to access repair information. For the purposes of this evaluation, how many individual documents would you have had to purchase to acquire all of the information you needed to perform the repair?	<input type="text"/>	
5.5a	What would have been the total cost of those documents? Please identify in the "Notes" column.	<input type="text"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
5.5b	What emissions repair were you trying to do? Please identify in the "Notes" column.	<input type="text"/>	
5.5c	Some manufacturer websites require the purchase of individual documents for downloading before they can be fully viewed. In some cases, only the table of contents is available for viewing before the purchase is made. Did you purchase documents that did not contain the information you were seeking? If yes, then please identify the document and the cost of that document in the "Notes" column.	<input type="text"/>	
5.6	Have you purchased service information, training materials, TSBs, CDs, videos, CD-ROMs, etc. from the website?	No	
5.6a	If so, indicate in the "Notes" column the number and description of materials purchased.	<input type="text"/>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (select from the list or insert NA)	Notes
5.7	<p>Does your shop specialize in vehicle repairs from specific OEMs?</p> <p>1. Asian</p> <p>2. European</p> <p>3. Domestic</p> <p>4. We specialize in vehicles from a single OEM, _____ . Please list that OEM.</p> <p>5. We service vehicles from all OEMs and do not specialize in any specific OEMs or group of OEMs.</p>	<div style="border: 1px solid black; padding: 2px;">2 European</div>	
5.8	<p>What is your primary source for electronic service information?</p> <p>1. Aftermarket (e.g., ALLDATA, Mitchell1, etc.)</p> <p>2. OEM Websites</p> <p>3. Other, please list in the "Notes" column.</p>	<div style="border: 1px solid black; padding: 2px;">Aftermarket</div>	
5.9	<p>How much do you spend for an annual subscription to your primary source listed above?</p> <p>1. \$0 - \$500</p> <p>2. \$500 - \$1,000</p> <p>3. \$1,000 - \$2,000</p> <p>4. Over \$2,000</p>	<div style="border: 1px solid black; padding: 2px;">\$1,000 - \$2,000</div>	

(cont.)

Draft OEM Audit Questionnaire (cont.)

Question Number	Question	Response (Yes, No, or NA)	Notes
If you use an aftermarket service provider as your primary source of service information, please respond to Questions 5.10 to 5.12.			
5.10	<p>What is the primary reason for selecting the primary source listed in question 5.8?</p> <ol style="list-style-type: none"> 1. Completeness for the brands I service 2. Experience/Familiarity with the product 3. Available off-line 4. Common organization of information for all manufacturers 5. Price 6. Other, please list in the "Notes" column. 	<div style="border: 1px solid black; padding: 2px;">4 Organization</div>	
5.11	<p>Approximately how many times do you access an OEM website?</p> <ol style="list-style-type: none"> 1. Never 2. 1 to 5 times monthly 3. 5 to 10 times monthly 4. 10 to 20 times monthly 5. Over 20 times monthly 	<div style="border: 1px solid black; padding: 2px;">1 to 5</div>
